- (a) only expenditures upon public services in the main estimates and supplementary estimates for which there was provision in the appropriation Act or any supplementary appropriation Act in force in the previous financial year are authorised by this section; and

(7) The Governor in Council may in respect of a public service prescribe an amount other than $1/12^{\text{th}}$ for any month referred to in subparagraph (1)(b)(i), but the sum of the amounts for that public service for the 4 months from the beginning of the financial year shall not exceed $4/12^{\text{ths}}$ of the amount provided for that public service in the main and supplementary estimates for which there was provision in the appropriation Act or any supplementary appropriation Act in the previous financial year.

(3) When a contingency warrant is issued with respect to an expenditure for a public service for which there is no appropriation, the amount provided by the contingency warrant is deemed to be an appropriation for the public service specified in the warrant for the financial year for which the warrant is issued until the supplementary appropriation Act is passed.

(4) On the coming into force of the supplementary appropriation Act that appropriates money for expenditures authorised by a contingency warrant, the contingency warrant lapses and the expenditures made under it are deemed to have been made for the corresponding expenditures under the supplementary estimates for which provision is made under the supplementary appropriation Act.
